Space 10 ft.; **Reach** 10 ft.

Special Attack web (+6 ranged, DC 12, hp 3)

TACTICS

Before Combat The giant spider is 20 feet off the ground in the northwest corner of the room. She's hiding when the PCs enter the room (DC 21 Perception check to spot). She only attacks once all of the PCs are down in the pit.

During Combat The giant spider is mindless and simply sees an opportunity for food. Once all of the PCs are down in the pit, she webs the first one she sees and then attacks the rest.

Morale The giant spider fights to the death.

SPECIAL ABILITIES

Poison (Ex) Bite—injury; *save* Fort DC 16; *frequency* 1/round for 4 rounds; *effect* 1d2 Strength damage; *cure* 1 save.

Web (Ex) Creatures with the web ability can use webs to support themselves and up to one additional creature of the same size. In addition, such creatures can throw a web up to eight times per day. This is similar to an attack with a net but has a maximum range of 50 feet, with a range increment of 10 feet, and is effective against targets up to one size category larger than the web spinner. An entangled creature can escape with a successful Escape Artist check or burst the web with a Strength check. Both are standard actions with a DC equal to 10 + ½ creature's HD + creature's Con modifier. Attempts to burst a web by those caught in it suffer a -4 penalty. Web spinners can create sheets of sticky webbing up to three times their size. They usually position these sheets to snare flying creatures but can also try to trap prey on the ground. Approaching creatures must succeed on a DC 20 Perception check to notice a web; otherwise they stumble into it and become trapped as though by a successful web attack.

Attempts to escape or burst the webbing gain a +5 bonus if the trapped creature has something to walk on or grab while pulling free. Each 5-foot-square section of web has a number of hit points equal to the Hit Dice of the creature that created it and DR 5/—. A creature can move across its own web at its climb speed and can pinpoint the location of any creature touching its web.

TACTICS

Before Combat If Grench hears the PCs approach, he moves behind the crates and waits in ambush. If he doesn't, he's standing at the bottom of the stairs, leaning against the wall.

During Combat Grench uses *cause fear*, *lesser confusion*, and aura of madness to keep melee PCs away from him. He'll then use his Channel Negative Energy ability to harm the PCs. If forced into melee combat, he draws his heavy flail, shouts an invective at the PCs, and attacks.

Morale Grench fights to the death.

SPECIAL ABILITIES

Hatred (Ex) Mites receive a +1 bonus on attack rolls against humanoid creatures of the dwarf or gnome subtype due to special training against these hated foes.

Light Sensitivity (Ex) Mites are dazzled in bright sunlight or within the radius of a *daylight* spell.

Vermin Empathy (Ex) This ability functions as a druid's wild empathy, save that a mite can only use this ability on vermin. A mite gains a +4 racial bonus on this check. Vermin are normally mindless, but this empathic communication imparts on them a modicum of implanted intelligence, allowing mites to train Medium vermin and use them as mounts. Vermin empathy treats swarms as if they were one creature possessing a single mind—a mite can thus use this ability to influence and direct the actions of swarms with relative ease.
