TACTICS

Before Combat The giant spider is 20 feet off the ground in the northwest corner of the room. She's hiding when the PCs enter the room (DC 21 Perception check to spot). She only attacks once all of the PCs are down in the pit.

During Combat The giant spider is mindless and simply sees an opportunity for food. Once all of the PCs are down in the pit, she webs the first one she sees and then attacks the rest.

Morale The giant spider fights to the death.

Web (Ex) Creatures with the web ability can use webs to support themselves and up to one additional creature of the same size. In addition, such creatures can throw a web up to eight times per day. This is similar to an attack with a net but has a maximum range of 50 feet, with a range increment of 10 feet, and is effective against targets up to one size category larger than the web spinner. An entangled creature can escape with a successful Escape Artist check or burst the web with a Strength check. Both are standard actions with a DC equal to 10 + ½ creature's HD + creature's Con modifier. Attempts to burst a web by those caught in it suffer a -4 penalty. Web spinners can create sheets of sticky webbing up to three times their size. They usually position these sheets to snare flying creatures but can also try to trap prey on the ground. Approaching creatures must succeed on a DC 20 Perception check to notice a web; otherwise they stumble into it and become trapped as though by a successful web attack. Attempts to escape or burst the webbing gain a +5 bonus if the trapped creature has something to walk on or grab while pulling free. Each 5-foot-square section of web has a number of hit points equal to the Hit Dice of the creature that created it and DR 5/—. A creature can move across its own web at its climb speed and can pinpoint the location of any creature touching its web.

TACTICS

Before Combat If Grench hears the PCs approach, he casts *bull's strength* and *rage* on himself (not included in his stats). If he doesn't, he's standing at the bottom of the stairs, leaning against the wall.
During Combat Grench uses *confusion*, *hold person*, *touch of idiocy*, and *cause fear* to keep melee PCs away from him. He'll then use his Channel Negative Energy ability to harm the PCs. If forced into melee combat, he draws his +2 *heavy flail*, shouts an invective at the PCs, and attacks.
Morale Grench fights to the death.
