

Detect Magic **Mesmerist 0**

School divination
Casting Time 1 standard action
Components T, E
Range 60 ft.
Area cone-shaped emanation
Duration concentration, up to 1 min./level (D)
Saving Throw none; **Spell Resistance** no

You detect magical auras. The amount of information revealed depends on how long you study a particular area or subject.

1st Round: Presence or absence of magical auras.

2nd Round: Number of different magical auras and the power of the most potent aura.

3rd Round: The strength and location of each aura. If the items or creatures bearing the auras are in line of sight, you can make Knowledge (arcana) skill checks to determine the school of magic involved in each. (Make one check per aura: DC 15 + spell level, or 15 + 1/2 caster level for a nonspell effect.) If the aura emanates from a magic item, you can attempt to identify its properties (see Spellcraft).

Magical areas, multiple types of magic, or strong local magical emanations may distort or conceal weaker auras.

Aura Strength: An aura's power depends on a spell's functioning spell level or an item's caster level; see the accompanying table. If an aura falls into more than one category, *detect magic* indicates the stronger of the two.

Lingering Aura: A magical aura lingers after its original source dissipates (in the case of a spell) or is destroyed (in the case of a magic item). If *detect magic* is cast and directed at such a location, the spell indicates an aura strength of dim (even weaker than a faint aura). How long the aura lingers at this dim level depends on its original power:

Original Strength - Duration of Lingering Aura

Faint - 1d6 rounds
 Moderate - 1d6 minutes
 Strong - 1d6 x 10 minutes
 Overwhelming - 1d6 days

Outsiders and elementals are not magical in themselves, but if they are summoned, the conjuration spell registers. Each round, you can turn to detect magic in a new area. The spell can penetrate barriers, but 1 foot of stone, 1 inch of common metal, a thin sheet of lead, or 3 feet of wood or dirt blocks it.

Detect magic can be made permanent with a *permanency* spell.

Ghost Sound **Mesmerist 0**

School illusion (figment)
Casting Time 1 standard action
Components T, E, M (a bit of wool or a small lump of wax)
Range close (25 + 5 ft./2 levels)
Effect illusory sounds
Duration 1 round/level (D)
Saving Throw DC 15 Will disbelief; **Spell Resistance** no

Ghost sound allows you to create a volume of sound that rises, recedes, approaches, or remains at a fixed place. You choose what type of sound ghost sound creates when casting it and cannot thereafter change the sound's basic character. The volume of sound created depends on your level. You can produce as much noise as four normal humans per caster level (maximum 40 humans). Thus, talking, singing, shouting, walking, marching, or running sounds can be created. The noise a ghost sound spell produces can be virtually any type of sound within the volume limit. A horde of rats running and squeaking is about the same volume as eight humans running and shouting. A roaring lion is equal to the noise from 16 humans, while a roaring dragon is equal to the noise from 32 humans. Anyone who hears a ghost sound receives a Will save to disbelieve.

Ghost sound can enhance the effectiveness of a silent image spell.

Ghost sound can be made permanent with a permanency spell.

Light **Mesmerist 0**

School evocation / wood elemental [light]
Casting Time 1 standard action
Components T, M/DF (a firefly)
Range touch
Target object touched
Duration 10 min./level
Saving Throw none; **Spell Resistance** no

This spell causes a touched object to glow like a torch, shedding normal light in a 20-foot radius, and increasing the light level for an additional 20 feet by one step, up to normal light (darkness becomes dim light, and dim light becomes normal light). In an area of normal or bright light, this spell has no effect. The effect is immobile, but it can be cast on a movable object. You can only have one light spell active at any one time. If you cast this spell while another casting is still in effect, the previous casting is dispelled. If you make this spell permanent (through permanency or a similar effect), it does not count against this limit.

Light can be used to counter or dispel any darkness spell of equal or lower spell level.

Message **Mesmerist 0**

School transmutation / air elemental [language-dependent]
Casting Time 1 standard action
Components T, E, F (a piece of copper wire)
Range medium (100 + 10 ft./level)
Target one creature/level
Duration 10 min./level
Saving Throw none; **Spell Resistance** no

You can whisper messages and receive whispered replies. Those nearby can hear these messages with a DC 25 Perception check. You point your finger at each creature you want to receive the message. When you whisper, the whispered message is audible to all targeted creatures within range. Magical silence, 1 foot of stone, 1 inch of common metal (or a thin sheet of lead), or 3 feet of wood or dirt blocks the spell. The message does not have to travel in a straight line. It can circumvent a barrier if there is an open path between you and the subject, and the path's entire length lies within the spell's range. The creatures that receive the message can whisper a reply that you hear. The spell transmits sound, not meaning; it doesn't transcend language barriers. To speak a message, you must mouth the words and whisper.

Prestidigitation

Mesmerist 0

School universal
Casting Time 1 standard action
Components T, E
Range 10 ft.
Target see text
Effect see text
Area see text
Duration 1 hour
Saving Throw see text; **Spell Resistance** no

Prestidigitations are minor tricks that novice spellcasters use for practice. Once cast, a prestidigitation spell enables you to perform simple magical effects for 1 hour. The effects are minor and have severe limitations. A prestidigitation can slowly lift 1 pound of material. It can color, clean, or soil items in a 1-foot cube each round. It can chill, warm, or flavor 1 pound of nonliving material. It cannot deal damage or affect the concentration of spellcasters.

Prestidigitation can create small objects, but they look crude and artificial. The materials created by a prestidigitation spell are extremely fragile, and they cannot be used as tools, weapons, or spell components. Finally, prestidigitation lacks the power to duplicate any other spell effects. Any actual change to an object (beyond just moving, cleaning, or soiling it) persists only 1 hour.

Read Magic

Mesmerist 0

School divination
Casting Time 1 standard action
Components T, E, F (a clear crystal or mineral prism)
Range personal
Target you
Duration 10 min./level

You can decipher magical inscriptions on objects - books, scrolls, weapons, and the like - that would otherwise be unintelligible. This deciphering does not normally invoke the magic contained in the writing, although it may do so in the case of a cursed or trapped scroll. Furthermore, once the spell is cast and you have read the magical inscription, you are thereafter able to read that particular writing without recourse to the use of read magic. You can read at the rate of one page (250 words) per minute. The spell allows you to identify a glyph of warding with a DC 13 Spellcraft check, a greater glyph of warding with a DC 16 Spellcraft check, or any symbol spell with a Spellcraft check (DC 10 + spell level).

Read magic can be made permanent with a permanency spell.

Forbid Action

Mesmerist 1

School enchantment (compulsion) [mind-affecting, language-dependent]
Casting Time 1 standard action
Components T
Range close (25 + 5 ft./2 levels)
Target one creature
Duration 1 round
Saving Throw DC 16 Will negates; **Spell Resistance** yes

You forbid the target a single course of action, which it avoids to the best of its ability. You may demand the target not take actions that fall into one of the following options.

Attack: The target cannot take any action that involves an attack roll, or uses a spell or ability that targets a foe or an area that includes a foe.

Cast: Target cannot cast spells or use spell-like abilities.

Communicate: The target cannot take any actions that allow it to communicate with anyone. This includes such acts as speaking, Bluff checks to pass secret messages, writing, and using telepathy. It does not prevent verbalizations made for purposes other than communication, such as command words or the verbal component of spellcasting.

Draw: Target cannot ready or prepare any item, weapon, component, or equipment.

Move: The target can take no act that would cause it to end up in a different location. The target does not resist being moved by others (and thus can be picked up or dragged, or can float along on a raft), but does not consciously attempt to move (including not directing a mount to move). The target is free to take any actions not forbidden by the caster. For example, a target affected by this spell's demand to not move is still free to cast spells, make attacks, or shout for help.

Grease

Mesmerist 1

School conjuration / earth elemental (creation)
Casting Time 1 standard action
Components T, E, M (butter)
Range close (25 + 5 ft./2 levels)
Target one object or 10-ft. square
Duration 1 min./level (D)
Saving Throw see text; **Spell Resistance** no

A grease spell covers a solid surface with a layer of slippery grease. Any creature in the area when the spell is cast must make a successful Reflex save or fall. A creature can walk within or through the area of grease at half normal speed with a DC 10 Acrobatics check. Failure means it can't move that round (and must then make a Reflex save or fall), while failure by 5 or more means it falls (see the Acrobatics skill for details). Creatures that do not move on their turn do not need to make this check and are not considered flat-footed. The spell can also be used to create a greasy coating on an item. Material objects not in use are always affected by this spell, while an object wielded or employed by a creature requires its bearer to make a Reflex saving throw to avoid the effect. If the initial saving throw fails, the creature immediately drops the item. A saving throw must be made in each round that the creature attempts to pick up or use the greased item. A creature wearing greased armor or clothing gains a +10 circumstance bonus on Escape Artist checks and combat maneuver checks made to escape a grapple, and to their CMD to avoid being grappled.

Hideous Laughter Mesmerist 1

School enchantment (compulsion) [mind-affecting]
Casting Time 1 standard action
Components T, E, M (tiny fruit tarts and a feather)
Range close (25 + 5 ft./2 levels)
Target one creature; see text
Duration 1 round/level
Saving Throw DC 16 Will negates; **Spell Resistance** yes

This spell afflicts the subject with uncontrollable laughter. It collapses into gales of manic laughter, falling prone. The subject can take no actions while laughing, but is not considered helpless. After the spell ends, it can act normally. On the creature's next turn, it may attempt a new saving throw to end the effect. This is a full round action that does not provoke attacks of opportunity. If this save is successful, the effect ends. If not, the creature continues laughing for the entire duration. A creature with an Intelligence score of 2 or lower is not affected. A creature whose type is different from the caster's receives a +4 bonus on its saving throw, because humor doesn't "translate" well.

Murderous Command Mesmerist 1

School enchantment (compulsion) [mind-affecting]
Casting Time 1 standard action
Components T
Range close (25 + 5 ft./2 levels)
Target one living creature
Duration 1 round
Saving Throw DC 16 Will negates; **Spell Resistance** yes

You give the target a mental urge to kill its nearest ally, which it obeys to the best of its ability. The target attacks its nearest ally on its next turn with a melee weapon or natural weapon. If necessary, it moves to or charges to the nearest ally in order to make this attack. If it is unable to reach its closest ally on its next turn, the target uses its turn to get as close as possible to the ally.

Blur Mesmerist 2

School illusion (glamer)
Casting Time 1 standard action
Components T
Range touch
Target creature touched
Duration 1 min./level (D)
Saving Throw Will negates (harmless); **Spell Resistance** yes (harmless)

The subject's outline appears blurred, shifting, and wavering. This distortion grants the subject concealment (20% miss chance). A see invisibility spell does not counteract the blur effect, but a true seeing spell does. Opponents that cannot see the subject ignore the spell's effect (though fighting an unseen opponent carries penalties of its own).

Calm Emotions Mesmerist 2

School enchantment (compulsion) [emotion, mind-affecting]
Casting Time 1 standard action
Components T, E, DF
Range medium (100 + 10 ft./level)
Area creatures in a 20-ft.-radius spread
Duration concentration, up to 1 round/level (D)
Saving Throw DC 17 Will negates; **Spell Resistance** yes

This spell calms agitated creatures. You have no control over the affected creatures, but calm emotions can stop raging creatures from fighting or joyous ones from reveling. Creatures so affected cannot take violent actions (although they can defend themselves) or do anything destructive. Any aggressive action against or damage dealt to a calmed creature immediately breaks the spell on all calmed creatures. This spell automatically suppresses (but does not dispel) any morale bonuses granted by spells such as bless, good hope, and rage, and also negates a bard's ability to inspire courage or a barbarian's rage ability. It also suppresses any fear effects and removes the confused condition from all targets. While the spell lasts, a suppressed spell, condition, or effect has no effect. When the calm emotions spell ends, the original spell or effect takes hold of the creature again, provided that its duration has not expired in the meantime.

Glitterdust Mesmerist 2

School conjuration / earth elemental / metal elemental (creation)
Casting Time 1 standard action
Components T, E, M (ground mica)
Range medium (100 + 10 ft./level)
Area creatures and objects within 10-ft.-radius spread
Duration 1 round/level
Saving Throw DC 17 Will negates (blinding only); **Spell Resistance** no

A cloud of golden particles covers everyone and everything in the area, causing creatures to become blinded and visibly outlining invisible things for the duration of the spell. All within the area are covered by the dust, which cannot be removed and continues to sparkle until it fades. Each round at the end of their turn blinded creatures may attempt new saving throws to end the blindness effect. Any creature covered by the dust takes a -40 penalty on Stealth checks.

Oneiric Horror Mesmerist 2

School illusion (phantasm) [mind-affecting]
Casting Time 1 standard action
Components T, E
Range medium (100 + 10 ft./level)
Target one living creature
Duration 1 round/level (D)
Saving Throw DC 17 Will negates; **Spell Resistance** yes

You cause the subject to believe it is being attacked by a creature out of its nightmares. Each round, the subject makes a full-attack action against the creature. A flying creature can still attempt a Fly check to hover. Each round on its turn after making a full attack against the imaginary creature, the subject can attempt a new saving throw to end the effect. The subject is fatigued for 1 minute after the spell ends.

Arcane Mark

Racial 0

School universal

Casting Time 1 standard action

Components V, S

Range touch

Effect one personal rune or mark, all of which must fit within 1 sq. ft.

Duration permanent

Saving Throw none; **Spell Resistance** no

This spell allows you to inscribe your personal rune or mark, which can consist of no more than six characters. The writing can be visible or invisible. An *arcane mark* spell enables you to etch the rune upon any substance without harm to the material upon which it is placed. If an invisible mark is made, a *detect magic* spell causes it to glow and be visible, though not necessarily understandable.

See *invisibility*, *true seeing*, a *gem of seeing*, or a *robe of eyes* likewise allows the user to see an invisible *arcane mark*. A *read magic* spell reveals the words, if any. The mark cannot be dispelled, but it can be removed by the caster or by an *erase* spell.

If an *arcane mark* is placed on a living being, the effect gradually fades in about a month.

Arcane mark must be cast on an object prior to casting *instant summons* on the same object (see that spell description for details).

Mage Hand

Racial 0

School transmutation

Casting Time 1 standard action

Components V, S

Range close (25 + 5 ft./2 levels)

Target one nonmagical, unattended object weighing up to 5 lbs.

Duration concentration

Saving Throw none; **Spell Resistance** no

You point your finger at an object and can lift it and move it at will from a distance. As a move action, you can propel the object as far as 15 feet in any direction, though the spell ends if the distance between you and the object ever exceeds the spell's range.

Mending **Racial 0**

School transmutation / metal elemental
Casting Time 10 minutes
Components V, S
Range 10 ft.
Target one object of up to 1 lb./level
Duration instantaneous
Saving Throw Will negates (harmless, object); **Spell Resistance** yes (harmless, object)

This spell repairs damaged objects, restoring 1d4 hit points to the object. If the object has the broken condition, this condition is removed if the object is restored to at least half its original hit points. All of the pieces of an object must be present for this spell to function. Magic items can be repaired by this spell, but you must have a caster level equal to or higher than that of the object. Magic items that are destroyed (at 0 hit points or less) can be repaired with this spell, but this spell does not restore their magic abilities. This spell does not affect creatures (including constructs). This spell has no effect on objects that have been warped or otherwise transmuted, but it can still repair damage done to such items.

Resistance **Racial 0**

School abjuration
Casting Time 1 standard action
Components V, S, M/DF (a miniature cloak)
Range touch
Target creature touched
Duration 1 minute
Saving Throw Will negates (harmless); **Spell Resistance** yes (harmless)

You imbue the subject with magical energy that protects it from harm, granting it a +1 resistance bonus on saves.

Resistance can be made permanent with a permanency spell.

Alarm **Racial 1**

School abjuration
Casting Time 1 standard action
Components V, S, F/DF (a tiny bell and a piece of very fine silver wire)
Range close (25 + 5 ft./2 levels)
Area 20-ft.-radius emanation centered on a point in space
Duration 2 hours/level (D)
Saving Throw none; **Spell Resistance** no

Alarm creates a subtle ward on an area you select. Once the spell effect is in place, it thereafter sounds a mental or audible alarm each time a creature of Tiny or larger size enters the warded area or touches it. A creature that speaks the password (determined by you at the time of casting) does not set off the alarm. You decide at the time of casting whether the alarm will be mental or audible in nature.

Mental Alarm: A mental alarm alerts you (and only you) so long as you remain within 1 mile of the warded area. You note a single mental "ping" that awakens you from normal sleep but does not otherwise disturb concentration. A silence spell has no effect on a mental alarm.

Audible Alarm: An audible alarm produces the sound of a hand bell, and anyone within 60 feet of the warded area can hear it clearly. Reduce the distance by 10 feet for each interposing closed door and by 20 feet for each substantial interposing wall. In quiet conditions, the ringing can be heard faintly as far as 180 feet away. The sound lasts for 1 round. Creatures within a silence spell cannot hear the ringing. Ethereal or astral creatures do not trigger the alarm.

Alarm can be made permanent with a permanency spell.

Mage Armor

Racial 1

School conjuration (creation) [force]
Casting Time 1 standard action
Components V, S, F (a piece of cured leather)
Range touch
Target creature touched
Duration 1 hour/level (D)
Saving Throw Will negates (harmless); **Spell Resistance** no

An invisible but tangible field of force surrounds the subject of a mage armor spell, providing a +4 armor bonus to AC. Unlike mundane armor, mage armor entails no armor check penalty, arcane spell failure chance, or speed reduction. Since mage armor is made of force, incorporeal creatures can't bypass it the way they do normal armor.

True Strike

Racial 1

School divination / void elemental
Casting Time 1 standard action
Components V, F (small wooden replica of an archery target)
Range personal
Target you
Duration see text

You gain temporary, intuitive insight into the immediate future during your next attack. Your next single attack roll (if it is made before the end of the next round) gains a +20 insight bonus. Additionally, you are not affected by the miss chance that applies to attackers trying to strike a concealed target.

Unseen Servant

Racial 1

School conjuration (creation)
Casting Time 1 standard action
Components V, S, M (a piece of string and a bit of wood)
Range close (25 + 5 ft./2 levels)
Effect one invisible, mindless, shapeless servant
Duration 1 hour/level
Saving Throw none; **Spell Resistance** no

An unseen servant is an invisible, mindless, shapeless force that performs simple tasks at your command. It can run and fetch things, open unstuck doors, and hold chairs, as well as clean and mend. The servant can perform only one activity at a time, but it repeats the same activity over and over again if told to do so as long as you remain within range. It can open only normal doors, drawers, lids, and the like. It has an effective Strength score of 2 (so it can lift 20 pounds or drag 100 pounds). It can trigger traps and such, but it can exert only 20 pounds of force, which is not enough to activate certain pressure plates and other devices. It can't perform any task that requires a skill check with a DC higher than 10 or that requires a check using a skill that can't be used untrained. This servant cannot fly, climb, or even swim (though it can walk on water). Its base speed is 15 feet. The servant cannot attack in any way; it is never allowed an attack roll. It cannot be killed, but it dissipates if it takes 6 points of damage from area attacks. (It gets no saves against attacks.) If you attempt to send it beyond the spell's range (measured from your current position), the servant ceases to exist.

False Life

Racial 2

School necromancy
Casting Time 1 standard action
Components V, S, M (a drop of blood)
Range personal
Target you
Duration 1 hour/level or until discharged; see text

You harness the power of unlife to grant yourself a limited ability to avoid death. While this spell is in effect, you gain temporary hit points equal to 1d10 + 1 per caster level (maximum +10).

Invisibility

Racial 2

School illusion / void elemental (glamer)
Casting Time 1 standard action
Components V, S, M/DF (an eyelash encased in gum arabic)
Range personal or touch
Target you or a creature or object weighing no more than 100 lbs./level
Duration 1 min./level (D)
Saving Throw Will negates (harmless) or Will negates (harmless, object); **Spell Resistance** yes (harmless) or yes (harmless, object)

The creature or object touched becomes invisible. If the recipient is a creature carrying gear, that vanishes, too. If you cast the spell on someone else, neither you nor your allies can see the subject, unless you can normally see invisible things or you employ magic to do so.

Items dropped or put down by an invisible creature become visible; items picked up disappear if tucked into the clothing or pouches worn by the creature. Light, however, never becomes invisible, although a source of light can become so (thus, the effect is that of a light with no visible source). Any part of an item that the subject carries but that extends more than 10 feet from it becomes visible.

Of course, the subject is not magically silenced, and certain other conditions can render the recipient detectable (such as swimming in water or stepping in a puddle). If a check is required, a stationary invisible creature has a +40 bonus on its Stealth checks. This bonus is reduced to +20 if the creature is moving. The spell ends if the subject attacks any creature. For purposes of this spell, an attack includes any spell targeting a foe or whose area or effect includes a foe. Exactly who is a foe depends on the invisible character's perceptions. Actions directed at unattended objects do not break the spell. Causing harm indirectly is not an attack. Thus, an invisible being can open doors, talk, eat, climb stairs, summon monsters and have them attack, cut the ropes holding a rope bridge while enemies are on the bridge, remotely trigger traps, open a portcullis to release attack dogs, and so forth. If the subject attacks directly, however, it immediately becomes visible along with all its gear. Spells such as *bleed* that specifically affect allies but not foes are not attacks for this purpose, even when they include foes in their area.

Invisibility can be made permanent (on objects only) with a *permanency* spell.

Resist Energy

Racial 2

School abjuration / all elements
Casting Time 1 standard action
Components V, S, DF
Range touch
Target creature touched
Duration 10 min./level
Saving Throw Fortitude negates (harmless); **Spell Resistance** yes (harmless)

This abjuration grants a creature limited protection from damage of whichever one of five energy types you select: acid, cold, electricity, fire, or sonic. The subject gains resist energy 10 against the energy type chosen, meaning that each time the creature is subjected to such damage (whether from a natural or magical source), that damage is reduced by 10 points before being applied to the creature's hit points. The value of the energy resistance granted increases to 20 points at 7th level and to a maximum of 30 points at 11th level. The spell protects the recipient's equipment as well.

Resist energy absorbs only damage. The subject could still suffer unfortunate side effects.

Resist energy overlaps (and does not stack with) protection from energy. If a character is warded by protection from energy and resist energy, the protection spell absorbs damage until its power is exhausted.

Dispel Magic

Racial 3

School abjuration / void elemental
Casting Time 1 standard action
Components V, S
Range medium (100 + 10 ft./level)
Target one spellcaster, creature, or object
Duration instantaneous
Saving Throw none; **Spell Resistance** no

You can use dispel magic to end one ongoing spell that has been cast on a creature or object, to temporarily suppress the magical abilities of a magic item, or to counter another spellcaster's spell. A dispelled spell ends as if its duration had expired. Some spells, as detailed in their descriptions, can't be defeated by dispel magic. Dispel magic can dispel (but not counter) spell-like effects just as it does spells. The effect of a spell with an instantaneous duration can't be dispelled, because the magical effect is already over before the dispel magic can take effect. You choose to use dispel magic in one of two ways: a targeted dispel or a counterspell.

Targeted Dispel: One object, creature, or spell is the target of the dispel magic spell. You make one dispel check (1d20 + your caster level) and compare that to the spell with highest caster level (DC = 11 + the spell's caster level). If successful, that spell ends. If not, compare the same result to the spell with the next highest caster level. Repeat this process until you have dispelled one spell affecting the target, or you have failed to dispel every spell. For example, a 7th-level caster casts dispel magic, targeting a creature affected by stoneskin (caster level 12th) and fly (caster level 6th). The caster level check results in a 19. This check is not high enough to end the stoneskin (which would have required a 23 or higher), but it is high enough to end the fly (which only required a 17). Had the dispel check resulted in a 23 or higher, the stoneskin would have been dispelled, leaving the fly intact. Had the dispel check been a 16 or less, no spells would have been affected. You can also use a targeted dispel to specifically end one spell affecting the target or one spell affecting an area (such as a wall of fire). You must name the specific spell effect to be targeted in this way. If your caster level check is equal to or higher than the DC of that spell, it ends. No other spells or effects on the target are dispelled if your check is not high enough to end the targeted effect. If you target an object or creature that is the effect of an ongoing spell (such as a monster summoned by *summon monster*), you make a dispel check to end the spell that conjured the object or creature. If the object that you target is a magic item, you make a dispel check against the item's caster level (DC = 11 + the item's caster level). If you succeed, all the item's magical properties are suppressed for 1d4 rounds, after which the item recovers its magical properties. A suppressed item becomes nonmagical for the duration of the effect. An interdimensional opening (such as a bag of holding) is temporarily closed. A magic item's physical properties are unchanged: A suppressed magic sword is still a sword (a masterwork sword, in fact). Artifacts and deities are unaffected by mortal magic such as this. You automatically succeed on your dispel check against any spell that you cast yourself.

Counterspell: When dispel magic is used in this way, the spell targets a spellcaster and is cast as a counterspell. Unlike a true counterspell, however, dispel magic may not work; you must make a dispel check to counter the other spellcaster's spell.

Haste

Racial 3

School transmutation
Casting Time 1 standard action
Components V, S, M (a shaving of licorice root)
Range close (25 + 5 ft./2 levels)
Target one creature/level, no two of which can be more than 30 ft. apart
Duration 1 round/level
Saving Throw Fortitude negates (harmless); **Spell Resistance** yes (harmless)

The transmuted creatures move and act more quickly than normal. This extra speed has several effects.

When making a full attack action, a hasted creature may make one extra attack with one natural or manufactured weapon. The attack is made using the creature's full base attack bonus, plus any modifiers appropriate to the situation. (This effect is not cumulative with similar effects, such as that provided by a *speed* weapon, nor does it actually grant an extra action, so you can't use it to cast a second spell or otherwise take an extra action in the round.)

A hasted creature gains a +1 bonus on attack rolls and a +1 dodge bonus to AC and Reflex saves. Any condition that makes you lose your Dexterity bonus to Armor Class (if any) also makes you lose dodge bonuses.

All of the hasted creature's modes of movement (including land movement, burrow, climb, fly, and swim) increase by 30 feet, to a maximum of twice the subject's normal speed using that form of movement. This increase counts as an enhancement bonus, and it affects the creature's jumping distance as normal for increased speed. Multiple *haste* effects don't stack. *Haste* dispels and counters *slow*.
